DVD+RW DISC for VIDEO and DATA

To achieve high-quality recording and a high level of durability, Fujifilm DVD+RW discs utilize a high-performance phase change material which is ideal for mass storage and long archival life. Designed for personal or professional use, the Fujifilm DVD+RW disc can record up to 4.7 GB or 120 minutes of video, high-resolution photo images, and large data files.

Highly compatible, the Fujifilm DVD+RW disc can be played on most DVD players and DVD-ROM drives after they're recorded. Excellent for archiving, our discs have a lifespan of more than 100 years so important data won't be lost.
