

DVD Plus R/RW Duplication Tower Systems

The DVD Tracer Plus R/RW Tower Duplication Systems from Condre, Inc., are full featured, reliable and economical duplicators utilizing new combo DVD Plus R/RW and CD R drive technology from Ricoh Corp. Now users can take advantage of the usability of the DVD +RW format and the low cost of the CD R format in one tower system configuration. Discs created with the Condre DVD Tracer Plus R/RW systems can be played back in virtually any set top player or any DVD ROM reader in a PC or laptop device. Multiple cooling fans and industrial power supplies assure the longevity of the system. In addition, the DVD Tracer Plus R/RW's menu commands include editing and track extraction functions that allow for the creation of compilation discs, and verify data written to duplicated DVD + RW or CD R discs. A small desktop footprint and appealing aesthetics allow the units to be integrated into virtually any front office environment. Contact Condre Sales today for more details !
